Project code :	POV1
Project title :	IE for Better Living (Student Self-Proposed Topic)
No. of students :	2
Description of project :	This project aims at promoting a better daily living for users from specific community groups (e.g., elderly people living alone, children with special education needs). Please form a group with 2 members. You and your project partner will propose and then implement your own innovative solutions which can benefit the community, such as those in daily living, education, health, etc. The deliverable can be in the form of a mobile app, software, or some other suitable form. Moreover, as part of this project you should conduct a field study to evaluate your mobile app, etc.
Industrial collaboration :	No.

Project code :	POV2
Project title :	Student Self-Proposed Topic
No. of students :	1-2
